A woman wearing a blue dress and a grey plaid hijab stands in a wooden gazebo. The gazebo has a lattice roof and wooden pillars. The background is a lush green garden with trees and foliage. The woman is looking towards the camera with a slight smile. The text is overlaid on a green rectangular background on the left side of the image.

Life's beauty lies in its everyday moments. My art celebrates the love, comfort, and peace found in shared cups, quiet reflections, and heartfelt connections. Inspired by the divine, I see the world as a canvas of blessings – prayers answered, duas accepted, and faith rewarded. Beautiful flowers bloom, hanging like blessings from the sky, while birds and butterflies dance, their songs and whispers reminders of Allah's love and presence in every moment.

## about the **artist**

Pakistani artist Shazly Khan's creative journey began with idyllic childhood memories in Algeria, where her love for art first blossomed. Her travels abroad, spanning Rome, France, and other art-rich European countries, profoundly influenced her style. Immersed in the masterpieces of Impressionism and Expressionism, these movements subtly shaped her subconscious, eventually finding expression in her vibrant and textured paintings.

With a passion for art that only intensified with time, Shazly experiments with techniques and mediums to craft captivating pieces that blend storytelling with subconscious desires. Her work has been showcased internationally, including solo exhibitions, group shows, and commissioned paintings for the US Embassy in Islamabad. Shazly's art is a reflection of her love for creativity and her desire to inspire and uplift others.
